

DH NIX Alpha Program is based upon a proprietary trading method of DeltaHedge and seeks to generate attractive absolute returns through investments in just one market: E-mini 5\$ Dow Jones Industrial Average Futures at CME. The founding idea of the Program is to decline the diversification concept in Automatic Trading Systems portfolios, trading only on a single Futures with a multi-strategy approach. Designed as institutional version of DH Nix Program, with a customized Money Management algorithm.

### Commentary

After the correction of August, US equity markets quickly recovered and started to flirt again with new highs. As we know, topish market are not the most favourable conditions for NixAlpha that, as a consequence, suffered a limited setback.
