

DH NIX Alpha Program is based upon a proprietary trading method of DeltaHedge and seeks to generate attractive absolute returns through investments in just one market: E-mini 5\$ Dow Jones Industrial Average Futures at CME. The founding idea of the Program is to decline the diversification concept in Automatic Trading Systems portfolios, trading only on a single Futures with a multi-strategy approach. Designed as institutional version of DH Nix Program, with a customized Money Management algorithm.

PAST PERFORMANCE IS NOT INDICATIVE OF FUTURE RESULTS

Commentary

Similar to what happened in October, the range of daily results was quite restrained, but the final score is a positive one. The month of December started with an acceleration in volatility, that hopefully will help in consolidating the YTD positive result.
