

DH NIX Alpha Program is based upon a proprietary trading method of DeltaHedge and seeks to generate attractive absolute returns through investments in just one market: E-mini 5\$ Dow Jones Industrial Average Futures at CME. The founding idea of the Program is to decline the diversification concept in Automatic Trading Systems portfolios, trading only on a single Futures with a multi-strategy approach. Designed as institutional version of DH Nix Program, with a customized Money Management algorithm.

Commentary

The comeback of volatility in the market increased the range of daily returns and the monthly score was achieved with a little bit of suspense, that certainly lacked in 2019. Hopefully this time volatility is here to stay, helping our strategy to thrive.

The first month of 2020 marked also a new monthly HwM for NixAlpha.
