

DH NIX Alpha Program is based upon a proprietary trading method of DeltaHedge and seeks to generate attractive absolute returns through investments in just one market: E-mini 5\$ Dow Jones Industrial Average Futures at CME. The founding idea of the Program is to decline the diversification concept in Automatic Trading Systems portfolios, trading only on a single Futures with a multi-strategy approach. Designed as institutional version of DH Nix Program, with a customized Money Management algorithm.

PAST PERFORMANCE IS NOT INDICATIVE OF FUTURE RESULTS

Commentary

In April, NixAlpha closed the month in negative territory, as a result of the volatility of daily results, that fluctuated all over the month between +1% / -1%, with no results. As a consequence, the program failed to find a clear direction.
