

DH NIX Alpha Program is based upon a proprietary trading method of DeltaHedge and seeks to generate attractive absolute returns through investments in just one market: E-mini 5\$ Dow Jones Industrial Average Futures at CME. The founding idea of the Program is to decline the diversification concept in Automatic Trading Systems portfolios, trading only on a single Futures with a multi-strategy approach. Designed as institutional version of DH Nix Program, with a customized Money Management algorithm.

Commentary

After a long period of inactivity due to the long term filters signalling the opportunity to stay out of the market, the strategies managed to take advantage of a day characterized by a high level of volatility and score a positive return.
