

DH NIX Alpha Program is based upon a proprietary trading method of DeltaHedge and seeks to generate attractive absolute returns through investments in just one market: E-mini 5\$ Dow Jones Industrial Average Futures at CME. The founding idea of the Program is to decline the diversification concept in Automatic Trading Systems portfolios, trading only on a single Futures with a multi-strategy approach. Designed as institutional version of DH Nix Program, with a customized Money Management algorithm.

Commentary

The toppish equity market in December penalized our strategies, hindered by reversed gap and lack of strong direction. Nevertheless, 2020 was a good year for DH NixAlpha. The R&D team is working on analysing and improving the dynamics of drawdown.
